### Rescheduled event.

To give us more confidence to run the race if conditions are less than ideal we are making the following changes for this event:

All entries to be in advance (deadline weds 24 Sept)

All entries to include an email address we can contact you on

If you have not done the race before or we do not know you we will request details of your experience

Payments to be made on 26 or 27 Sept when we have a better idea of conditions

In place of a tour anyone who wants more time will start with the TC2/SUP class. (Over recent years the times taken by tourers and the TC2/SUP class have been very similar and this will reduce the spread of paddlers on the water.)
